Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This is the sixth office action for U.S. Application 10/054,650 for a Dual Function Mirror Mount filed by Daniel M. Swain on October 19, 2001. Claims 1-20 are pending.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 19, 2005 has been entered.

Allowable Subject Matter

Claims 13-16 are allowed. Claims 1-12 and 17-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose a mirror head with a head wall formed as a unitary plastic piece and an interior surface defining a chamber and a periphery shaped to receive a mirror; a mounting means for clamping the mirror head tightly, yet turnably to an end portion or a ball mount of the support bracket; the mounting means having a socket means interiorly

Art Unit: 3632

of the interior chamber and defining a socket for receiving either of the end portion and the ball mount of the support bracket; whereby the socket means has an endwall portion of the head wall facing inwardly of the interior chamber, the endwall portion having an opening communicating with the socket; a clamping plate that combines with the endwall portion to form a socket for captivating on of either the end portion and the ball mount, the socket having both a cylindrical section and a spherical section; and a tightening means disposed at least in part, exteriorly of the interior chamber, the tightening means being actuated from outside the mirror head and the interior chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12 and 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 17 recite the limitation, "said tightening means being accessible while the tightening means is assembled". It is assumed that Applicant is attempting to claim that the tightening means is accessible while the mirror assembly is assembled. Also, for clarification, the word "In" should be

Art Unit: 3632

deleted from the beginning of claims 1 and 17, to clarify the fact that Applicant is claiming the mirror assembly and not just the clamping member.
